Meeting was called to order and a sign in log was passed around during safety discussion. The lack of previous meetings and establishment of new co-chairs required new membership consideration to establish a quorum.

Membership was established, 7 members with 7 present. An updated membership roster will be compiled.

The scope of work planned for the General Interest SC was reviewed. The SC will review all sections of the 21st Ed. that are not covered by another SC, which includes Sections 1, 2, 3, 4, 7, 13, Foreword and Annex C. Volunteers were asked to take responsibility for segments of this scope and prepare for the 22nd Ed. revision. Consideration of the PRCI guidance document was discussed and it was agreed that some revision opportunities would be discovered by this review.

Each volunteer section leader will organize independent meetings to work on the revision this year.

The front matter, sections 1, 2 and 3 are well managed by API, and review of these sections will be focused on continuity with the main body and any errors that may be present.

The floor was open to new business, and hearing none a motion was received to adjourn and seconded, unanimous for.
