API C2 / SC 17
SUBCOMMITTEE ON SUBSEA PRODUCTION SYSTEMS

API 17O HIPPS
TASK GROUP STATUS

JUNE 2019
1. INTRODUCTION

The API 17O task group’s scope of work is to maintain the recommended practice for High Integrity Pressure Protections Systems (HIPPS) for subsea production systems.

2. STATUS UPDATE

The RP was first published in October 2009. The second edition was published in July 2014. There is no current activity in the working group.

The next revision is due in 2019, so it is planned to contact the working group and identify if there are any updates or additions identified.

The working group has been contacted, and no issues were identified. It is suggested that SC17 discuss if any changes are needed before next edition or to revalidate as current document.

Document was reaffirmed at the Winter 2019 meeting of API SC17.

3. MEMBERSHIP

The working group is made up of the following members.
