Item 650-533 is not based on the current wording for 3.7.6.1 which appears in the draft 11th edition as developed in the PIP Merge item. ANSI B16.5 flanges are now the first choice for nozzles, not the various figures in 650. I suggest this item be revised and rebaloted, incorporating the approved verbiage in the draft 11th edition.

Why is "and Flanges" deleted in 3.7.6 and the first sentences says "Shell nozzles and flanges..."?

Suggest leaving the title of 3.7.6 unchanged.
