

PVT Agenda Items Approved for Ballot or Publication – Fall 2005

Standard 620				
Agenda Item	Title	Disposition	Subgroup	Expected Edition/Addendum
620-237	Undercut Tolerance & Weld Profiles (Contours)	Ballot	Fab	
620-270	Nickel Alloy and Stainless Steel Pipe	Ballot	Fab	
620-275	Pre-heat Requirements	Publish	Fab	10 th Ed. A2
620-276	Die Stamping of 9% nickel or stainless steel materials	Ballot	Fab	
620-278	Examination required after unacceptable welding is repaired	Ballot	Fab	
Standard 650				
650-476	Undercut Tolerance & Weld Profiles (Contours)	Ballot	Fab	
650-533	Nozzle Neck Definition	Ballot	Fab	
650-547	Tolerance for Tank Construction	Ballot	Fab	
650-551	Incorporate applicable welding requirements from RP 582 into API 650	Ballot	Fab	
650-601	Appendix M Shell Manholes	Publish	Fab	10 th Ed. Add. 4
650-604	P-Number/Group Correction	Publish	Fab	10 th Ed. Add. 4
650-606		Publish	Fab	10 th Ed. Add. 4
Standard 653				
653-120	Undercut Tolerances	Ballot	Fab	
653-156	Clarification of API 653 6.9 Inspection Reports and Inspector Recommendations	Ballot	Fab	
653-168	Clarification of NDE requirements for hot tap welds and clarified nozzled test pressure	Ballot	Fab	
653-175	Clarify the evaluation of various elements of an RPS within section 4.4 "Tank Bottom Evaluation"	Ballot	Fab	
653-177	Life of an Internal Lining	Ballot	Fab	
653-187	Define the Requirements for a Major Bottom Repair	Publish	Fab	3 rd Ed. A2
653-193	Inspection Requirements for Repairs to Floating Roofs	Ballot	Fab
